CAN NOW HARDWARE MINE YOUR TOKEN

MORE TOKEN ADOPTION & STAKING THROUGH HARDWARE MINING

Spider Miner Ultra

The Spider Ultra is the world's first Multi-Token Hardware Miner, with the ability to mine up to 3 tokens at a time, right into the hardware.

Low Power Consumption

A low power-draw mining rig could half your electricity bill while still earning tokens. Spider Miners are designed to be energy efficient, using minimal fans and stand in a more compact and ventilated design.

Beneficial Partnership

Spider is a mutually-beneficial partnership with a Hardware Manufacturer, who will be producing the Spider Miners. Spider Miners will be sold on SpiderMiner.io Marketplace. Stake Miners.

SPIDER CRYPTO MINERS

THE WORLD'S 1 MOST ECO-FRIENDLY CRYPTO MINERS. SPIDERMINERS HAVE NET-ZERO CARBON EMISSIONS!

Unlike traditional power hungry crypto mining, Spider crypto miners have ultra-low power requirements. A typical spiderminer requires only 3 kw/h electricity to operate. Its equivalent to only 10.95MWs of electricity over a ONYEAR year. That is already an incredibly impressive result for a hardware mining rig.

Buy a Miner - Plant a Tree

For every token sold, we will deposit the equivalent amount of carbon into a carbon-offsetting scheme, ensuring our carbon footprint is negative.

Low Power, Low Emissions

SpiderMiners have ultra-low power requirements, and are designed to be energy efficient, using minimal fans and stand in a more compact and ventilated design.

Mine Crypto, Earn tokens & Protect the Environment

Unlike traditional crypto Mining you can earn tokens and protect the environment. Spider Miners are designed to be energy efficient, and have net-zero carbon emissions. Earn tokens & Save the world.

Even if your SpiderMiner's electricity is exclusively sourced from burning fossil fuels then it's equivalent to smoking approximately 1/8 of a cigarette per year. Spider Miners are a drop in the ocean of human carbon emissions and especially so when regular through the lifetime of the trees that are planted on your behalf.

INTRODUCING THE SPIDERMINER ULTRA.

Due to its unparalleled accessibility, token mining rig is guaranteed to sell 10 to SpiderMiner. Its ease of use makes it much further ahead of competitors and other crypto miners.

Fully Secure environment

Miner are secured into VPN protected DHCP network, to ensure user anonymity and security. Miners are also secured with Mac address whitelisting and firmware security, ensuring maximum security.

Ease Keep-up-to-date Interface

The Spider Ultra could when Miner Hardware designed to be a simple to use, configure and keep up-to-date. Miner Hardware designed to be a simple to use, configure and keep up-to-date. Miner Hardware designed to be a simple to use, configure and keep up-to-date.
