

# SpiderDAO.

SpiderDAO is a next generation hardware-based DAO governance model that aims to bring a new standard of fairness to existing DAO frameworks

## THE CHALLENGE

Traditional DAO models are subject to attack and takeover by plutocracies controlled by wealthy whales. He who controls the votes, controls the DAO.

I criticize DAO's because I love them. On-chain algorithms open to vote probing... Plutocracy gives me heartburn.

Vitalik Buterin

## THE SPIDERDAO SOLUTION

We solve this issue by introducing a dual-governance model that bundles hardware & software tools with on-chain elements, providing a 'whale resistant' governance solution.

Hardware-enabled DAO Election Process

Whale-resistant Dual Governance Model

Global High-speed SpiderVPN service

## SPIDERDAO ECOSYSTEM

## TOKEN UTILITY

### Eligibility for DAO Voting Rights

One Router = One Vote  
Tamper-resistant model

### Liquidity as Utility Model

Access to SPDR Utility via Select LP Tokens: Liquidity = Utility

### Free VPN for Liquidity Providers

## TOKEN ECONOMICS

Token Ticker: **\$SPDR**  
Token Supply: **1,000,000,000**  
Effective M/Cap: **\$250,000**  
Sale Price: **\$0.02**  
Vesting: **Weekly for 12 weeks**

### Rounds

|                  |     |             |
|------------------|-----|-------------|
| Strategic Sale   | 10% | 100,000,000 |
| Liquidity Mining | 60% | 600,000,000 |
| Liquidity        | 6%  | 60,000,000  |
| Team             | 20% | 200,000,000 |
| Advisors         | 4%  | 40,000,000  |

## HARDWARE UTILITY

The SpiderConnect Router is a best-in-class router that serves multiple roles as a high-speed VPN tunnel, a DAO voting ticket, and a node in a fully autonomous decentralised VPN which webs the Spider ecosystems together, offering access to the SpiderDashboard with a multitude of features leveraging the Polkadot Parachain. Each Sale participant that contributes \$2k+ will receive a complimentary router.

### Proposed Products

#### SpiderDAO Products

#### SpiderVault

#### SpiderVPN

#### Bandwidth marketplace

### DAO Launch: Polkadot

Testnet Deep Dev of dVPN  
OpenWRT Testnet of Spider dVPN Native App Dev iOS  
Android Beta Release

### Bridge ERC-20 to Polkadot

DAO Dashboard Release  
H/Ware Features inc DPI  
iOS Community Beta  
Win/MacOS Dev

### Spare Bandwidth Model
